SUGGESTED REQUIREMENT FOR RESTRICTION UNDER 37 C.F.R. § 1.142(c)

Pursuant to 37 C.F.R. 1.142(c), the Applicant hereby suggests restriction of the claims of the present application to one of the following Groups:

- I. Claims 1-7, 9-12, 15-21, 23-27, and 38-39, directed to a device for controlled release of molecules and a system for localized delivery of molecules within the body;
- II. Claims 29-37, directed to a method of delivering molecules to a specific body region;
- III. Claims 40-43, directed to a method of fabricating a device for controllable release of molecules.

The above-identified Groups are likely to be subject to different classifications, and are likely to require different fields of search, thus the restriction is appropriate. If the Examiner restricts the claims as suggested above, the Applicant hereby elects, without traverse, Group I (claims 1-7, 9-12, 15-21, 23-27, and 38-39).

Respectfully submitted,
